The OPR for this supplement is 341 SW/SEW (Mr Peter Woelkers). This supplement implements and extends the guidance of **Air Force Instruction (AFI) 91-101, Air Force Nuclear Weapons Surety Program**. The AFI is published word-for-word without editorial review. Malmstrom Air Force Base (MAFB) supplemental material is indicated in bold face. This supplement describes MAFB's procedures for use in conjunction with the basic AFI. This supplement applies to all personnel assigned to the 341st Space Wing and subordinate units, and personnel assigned or attached to, or supported by, MAFB. Upon receipt of this integrated supplement, discard the Air Force basic publication.

SUMMARY OF REVISIONS

The revision of this publication is to meet the format standards required by Air Force. No content material has changed, only numbering and designation changes have been made. Some required format changes have been made to allow for the conversion process.

17. Training. Personnel will complete nuclear surety and Personnel Reliability Program (PRP) training prior to being certified under the PRP.
